RE: Wastewater Service
Monteray Shores - Phase 10 Project (4596 Monteray Sewer Allocation)
Corolla - Currituck County

Dear Currituck County:

Carolina Water Service of North Carolina holds permit Number WQ0009772 allowing for the continued operation of the Monteray Shores wastewater treatment and disposal system. The subject treatment system permit is in effect through October 31, 2026 and can be renewed and reissued. At this time, there are no significant compliance or flow capacity issues related to the operation of the Monteray Shores wastewater facility. As such, wastewater management needs generated through the referenced project (restaurant, boat slips, and residences) have potential to be served through the Monteray Shores WWTP based on a cursory review of available information.

Please note that the above position is based on a preliminary review of Monteray Shores' operational status. A final determination regarding the feasibility of directing flow from the subject project to Monteray Shores would not be made until review of a sewer extension permit application package is performed. All conditions and requirements for issuance of a sewer system extension permit must be satisfied to enable approval of such permit. No part of a sewer collection system shall be constructed without first obtaining required permits.

This letter does not commit or obligate Carolina Water Service of North Carolina to provide sewer service for the subject project, nor does it obligate the Division of Water Resources to issue related sewer system permits for the project.

A copy of the Monteray Shores WWTP permit is attached for reference.
